FYI. I added the very high level summary document OAQPS provided at our first meeting last week too.

Attached are the four comments EPA received on the Texas SO₂ error correction. They will not be made publicly available on regulations.gov until the docket office QAs and posts them. In addition to the Sierra Club main comment document (attached), there are 9 separate exhibits that I will either send separately or post a link.

I will set up a meeting later in the week for us to discuss.
